

**Manchester Stem Cell Network
Seminar Series**

Wednesdays at 1 or 2 pm - Smith Lecture Theatre.

November 16th – 1pm

Jane Sowden: Institute of Child Health, UCL
'Towards stem cell therapy for retinal disease'

October 14th

Manchester Tissue Regeneration and Stem Cell Network Meeting

November 4th – 1pm

Paul Genever: Dept of Biology, University of York
'3D models of mesenchymal stem cells'

January 13th – 2pm

Mikael Englund: Cellartis AB, Dundee
'Generation of endodermal and mesodermal hES cell derivatives and scaled up hES cell production'

February 17th – 2pm

Kevin Docherty: University of Aberdeen
'Modelling pancreatic development using embryonic stem cells'

March 17th – 2pm

Paul Sharpe : King's College London
'Dental stem cells; growth, repair and regeneration'

April 21st – 1pm

Clare Blackburn: Institute for Stem Cell Research, University of Edinburgh
"Epithelial progenitor cells and thymus generation in vitro and in vivo"

May 12th – 1pm

Paul Fairchild: Sir William School of Pathology, University of Oxford
TBC

June 16th – 1pm (TBC)
