

Manchester Stem Cell Network 2010-11

Young Investigator Seminar Series

Wednesdays, 4-5pm, AV Hill Seminar Room 1.006

Refreshments Provided - All Welcome

- 15.09.10 Duncan Miller: Investigating the role of TGF β signalling components during differentiation of hESCs to definitive endoderm
Chair: MB
Jila Ajeian: "The Human Embryonic Stem Cell Niche"
- 20.10.10 Jinpe Ye: "Derivation of Novel hES Cells Under GMP Conditions"
Chair: LM
Aixin Cheng: tbc
- 17.11.10 Alessandro Bonfini: "Maintenance of Drosophila Germinal Stem Cell Niche: Involvement of Notch"
Chair: CP
Sarah Ritson: "The Role of JAM 2 in Mouse ES cells"
- 15.12.10 Shahnaz Khan: "Mesenchymal Stem Cells and Regeneration of the Intervertebral Disc"
Chair: MB
Kate Meade: "Novel Scaffolds for ES Cell Culture"
- 12.01.11 Zoher Kapacee: "iPS cells as a model for Ocular Disorders"
Chair: LM
Kate Hawkins: "The Role of E-cadherin in mES Self-Renewal"
- 16.02.11 Georgios Anyfantis: "The Endocrine Potential of hES cells"
Chair: CP
Donna Tillotson: "Carbon Nanotubes as Vectors to Effect Stem Cell Behaviour"
- 16.03.11 Ana Sergijenko: "Development of HSC Lentiviral Gene Therapy for MPSIIIA - In Vitro"
Chair: MB
Alex Langford-Smith: "Development of HSC Lentiviral Gene Therapy for MPSIIIA - In Vivo"
- 13.04.11 Fiona Wilkinson: tbc
Chair: LM
Joanna Salter: Efficacy testing of stem cell based tissue engineering therapies for intervertebral disc regeneration using a novel ex vivo model
- 18.05.11 Angharad O'Leary: "Defects in HSC Homing in a Heparan Sulphate Storage Disease Model"
Chair: CP
Kia Langford-Smith: "Development of Reduced Intensity Conditioning Regimens for Allogeneic Bone Marrow Transplants"
- 15.06.11 Alex Smith: "Glycomic Analysis of Stem Cell Populations"
Chair: MB
Claire Pickford: "The Glycosaminoglycan Phenotype of ES cells"

Kindly sponsored by Abcam plc and R&D Systems Inc.
