

Endocrine and Diabetes Research Group Seminars, Autumn 2010-2011

Friday, 01 October 2010

- Signalling and trafficking of gonadotrophin-releasing hormone receptors
Professor Craig McArdle, University of Bristol

Friday, 15 October 2010

- Epigenetics and liver fibrosis; insights into inheritance of protective mechanisms and the discovery of novel therapeutic targets
Dr Jelena Mann, Lecturer at Institute of Cellular Medicine, University of Newcastle

Friday, 22 October 2010

- Targeting glucocorticoids for treatment of inflammation
Professor David Ray, Professor of Medicine and Endocrinology, FMHS

Friday, 29 October 2010

- An overview of the genetics of rheumatoid arthritis
Professor Anne Barton, Arthritis Research UK Epidemiology Unit, FMHS

Friday, 05 November 2010

- 3-M Syndrome: Cullin' growth in an obscurin like manner
Dr Dan Hanson, Research Fellow, FMHS

Friday, 12 November 2010

- How does your gut taste?
Professor John McLaughlin, Professor of Gastroenterology and Nutrition, FMHS

Friday, 19 November 2010

- Regulation of Intestinal Inflammation
Professor Kathryn Else, Professor of Immunology, FLS

Friday, 26 November 2010

- Research interests in the structure and function of the extracellular matrix
Dr Neil Smyth, Reader at School of Biological Sciences, University of Southampton

Friday, 03 December 2010

- Adult stem cells for neuronal regeneration
Professor Giorgio Terenghi, Professor of Tissue Engineering, FMHS

Friday, 10 December 2010

- Circadian clocks in diseases and ageing: can we intervene?
Dr Qing-Jun Meng, MRC Fellow in Neurosystems, FLS
