

Cellular Systems Seminar Series

Wednesday 12pm, Smith Lecture Theatre

12th Oct

Paul Schulze-Lefert (Max Planck Institute for Plant Breeding Research, Cologne)

'Structure of and assembly cues for the Arabidopsis root-inhabiting bacterial microflora'

19th Oct **No Seminar**

26th Oct

Catherine Rabouille (Hubrecht Institute, Utrecht)

'Modulation of secretion by physiology and development'

2nd Nov

Stuart Wilson (University of Sheffield)

'The assembly and function of the TREX complex and the molecular basis for action of the " Vietnam timebomb'

9th Nov

Paul Luzio (Cambridge Institute for Medical Research)

'The delivery of endocytosed cargo to lysosomes'

16th Nov

Chris Proud (University of Southampton)

'mTOR (mammalian target of rapamycin) signalling and the control of cellular function'

23rd Nov

Gunnar von Heijne (Stockholm University)

'Membrane protein assembly in the ER: what are the rules'

30th Nov

Ron Hay (Wellcome Trust Centre for Gene Regulation and Expression, Dundee)

'How SUMO talks to ubiquitin'

7th Dec

Arne Ostman (Karolinska Institute, Sweden) *'TBA'*
