

## **Thursday Immunology Seminar Series, Spring 2008-2009**

For further information about this programme of events contact,

- Louise Bell, Email: Louise.Bell@manchester.ac.uk, Tel: 0161 306 4221

### **Thursday, 19 February 2009**

- Dendritic cells and the regulation of intestinal immunity Dr Gordon MacPherson, Oxford At 12:00 PM Room 1.006, AV Hill

### **Thursday, 26 February 2009**

- Antigen-specific and non-specific effects of CD8 T cell-inducing vaccines Dr Alistair Noble, KCL At 12:00 PM Room 1.006, AV Hill

### **Thursday, 05 March 2009**

- Innate immune recognition and response by intestinal epithelial cells Prof Mathias Hornef, Hannover At 12:00 PM Room 1.006, AV Hill

### **Thursday, 19 March 2009**

- Aging and the Immune Response Prof Richard Aspinall, Cranfield At 1:00 PM Room 1.006, AV Hill

### **Thursday, 26 March 2009**

- Omega-3 fatty acids and inflammation: from the membrane to the nucleus and from the bench to the bedside Prof Philip Calder, Southampton At 12:00 PM Room 1.006, AV Hill

### **Thursday, 07 May 2009**

- Induction, maintenance, and interactions of regulatory and effector T cell responses during helminth infections Dr Matthew Taylor, Edinburgh At 12:00 PM Room 1.006, AV Hill

### **Thursday, 14 May 2009**

- The Immunogenic as well as Cytotoxic Potential of Oncolytic Viral Therapy for Cancer Dr Alan Melcher, Leeds At 12:00 PM
