

Special Seminars

October 2009 – March 2010

Wednesday, 21 October 2009

Out of Manchester – Understanding the causes of Frontotemporal Dementia
Dr. Mike Hutton , Chief Scientific Officer, Neurodegeneration, Eli

Thursday, 22 October 2009

Balancing cell life and death decisions
Prof. Atan Gross, Weizmann Institute, Israel

Wednesday, 28 October 2009

(Ir)reversible decisions in dynamic cell biology and how they work
Professor Bela Novak

Thursday, 29 October 2009

Fc-receptors and immunity to malaria
Richard Pleass

Tuesday, 03 November 2009

Elastic Fibre Synthesis and Assembly: Insights from Human Genetics
Dr Zsolt Urban, Assistant Professor of Pediatrics and Genetics, Washington
University St Louis, USA.

Wednesday, 18 November 2009

Show me the Mummy – the face of Takabuti
KNH Centre for Egyptology

Tuesday, 24 November 2009

Aetiology of ocular surface infection
Suzanne Fleiszig and David Evans, University of California, Berkeley

Wednesday, 25 November 2009

On The Music of Life: A new paradigm for biology
Professor Denis Noble, Oxford University

Tuesday, 01 December 2009

Cilia and Flagella in health and disease: from protozoan parasites to humans
Professor Keith Gull, Oxford University

Wednesday, 16 December 2009

Less is More: Inhibitors of DNA Gyrase B and Beta-secretase from NMR
Screening and Fragment-based Design
Dr Alex Breeze, AstraZeneca

Tuesday, 12 January 2010

BRAF and RAS signalling in melanoma:biology and therapies
Prof Richard Marais, Institute of Cancer Research, London

Wednesday, 27 January 2010
A stroke of bad luck
Professor Dame Nancy Rothwell, University of Manchester

Thursday, 11 February 2010
Digital annotations: the publishers perspective
Adriaan Klinkenberg, Executive Publisher, Elsevier

Wednesday, 17 February 2010
The New Biology as Natural History: GenBank and the Debate over Data
Sharing in Science
Professor Bruno Strasser, Yale University

Friday, 19 February 2010
Opportunities for new technological developments from animal olfaction
Professor John Pickett, Department of Biological Chemistry, Rothamsted
Research

Wednesday, 17 March 2010
Text Mining in the Biograph project
Professor Walter Daelemans, University of Antwerp

Friday, 26 March 2010
Seeing is believing: imaging Ca²⁺-signalling events in living cells
Professor Graham McGeown, Queen's University, Belfast
