

Special Seminars

2009 / 2010 Spring/Summer

Tuesday, 20 April 2010

- [Open Access Chemical Probes for Pioneer Drug Discovery](#)
Tim Willson , Exploratory Chemistry & Biology, GlaxoSmithKline, North Carolina, USA

Monday, 10 May 2010

- [Precise timing of mitosis and cytokinesis in mammalian cells by Polo-like kinase 1](#)
Professor Francis Barr , University of Liverpool

Thursday, 13 May 2010

- [Toblerones, Cheerios and Coopers: Bacterial autotransporter proteins from expression to function](#)
Professor Ian Henderson , University of Birmingham
- [An Inductive Logic Programming Approach to Learning which uORFs Regulate Gene Expression](#)
Chris Bryant, University of Salford

Monday, 17 May 2010

- [Lessons from Development and the Cell Cycle on Cancer Initiation](#)
Rod Bremner, Toronto Western Research Institute

Wednesday, 19 May 2010

- [Technology and the Material Sciences of the Dead](#)
Professor Thomas Laqueur, Department of History, UC Berkeley

Thursday, 20 May 2010

- [Ageing, sex and DNA repair - genome duplication and the maintenance of genetic stability](#)
Prof Peter McGlyn, Aberdeen

Friday, 21 May 2010

- [FLS Developmental Biology Fellows Recruitment Mini Symposium](#)
Claudia Barros/ Julien Dubrulle/ Shane Herbert/ Anastasios Pavlopoulos/ Matthew Towers ,
University of Oxford/ Harvard University/ University of California, SF/ University of
Cambridge/ University of Bath

Monday, 24 May 2010

- [C. elegans functional genomics and drug screens targeting human nervous system and neuromuscular disorders.](#)
David Sattelle, Professor of Molecular Neurobiology, University of Oxford
- [Consilience in Evolutionary Systems Biology: Understanding the Origin of the Eukaryotic Cell](#)
James McInerney
- [Protein folding and stability: Regulation, redesign, role in disease and therapeutic intervention.](#)
Dr. Laura Itzhaki , MRC Cancer Cell Unit, Cambridge

Tuesday, 25 May 2010

- [Methodological aspects of survival analysis in cancer patients](#)
Professor Lars Holmberg, Division of Cancer Studies, King's College London School of Medicine

Wednesday, 26 May 2010

- [Sox2 is Essential for Formation of Trophectoderm in the Preimplantation Embryo/ The role of the extracellular matrix in regulating human embryonic stem cell pluripotency](#)
Maria Karamari/ Despina Soteriou, University of Manchester

Thursday, 27 May 2010

- [Trichoplax: A New Model System Enters the Lab](#)
Bernd Schierwater

Friday, 28 May 2010

- [How important are nitrogen oxides for the ability of mammalian organisms to cope with shortages in oxygen supply?](#)
Martin Feelisch, University of Warwick Medical School

Friday, 04 June 2010

- [DNA transposition from the chloroplast to the](#)
Prof Jeremy Timmis, Adelaide, Australia

Monday, 07 June 2010

- [Hybrid speciation studies in Senecio \(ragworts\)](#)
Adrian Brennan, University of St Andrews

Tuesday, 15 June 2010

- [Funding Opportunities at the Wellcome Trust](#)
Roger Blake, Liz Shaw and Jacob Leveridge, Wellcome Trust
- [Open Access Chemical Probes for Pioneer Drug Discovery](#)
Tim Willson, Exploratory Chemistry & Biology, GlaxoSmithKline, North Carolina, USA

- [Collectins and cathelicidins: effector proteins of the avian innate immune system](#)
Dr Edwin Veldhuizen, Dept of Infectious Diseases and Immunology Faculty of Veterinary Medicine Utrecht University

Tuesday, 22 June 2010

- [Stem cells and breast cancer: clinical implications](#)
Dr Salvatore Pece, University of Milan

Monday, 12 July 2010

- [Proteomic approaches to understanding cartilage biology and pathology](#)
Richard Wilson, Skeletal Biology, Murdoch Childrens Research Institute, Royal Children's Hospital, Melbourne, Australia

Monday, 19 July 2010

- [Cellular and Molecular Changes in Striatal Synapses in Parkinson's Disease](#)
Dr Joanne Nash , University of Toronto

Tuesday, 20 July 2010

- [TBA](#)
Professor Mitch Dowsett, Royal Marsden Hospital

Monday, 06 September 2010

- [Analgesic conotoxins: modulation of voltage-gated calcium channels in pain pathways](#)
Prof David Adams , RMIT University, Melbourne

Wednesday, 08 September 2010

- [Switching TGF-beta from a tumour suppressor to a tumour promoter](#)
Dr Gareth Inman, University of Dundee, UK
